

## Scavenger Hunt Rules

In order to cash in on the face value of the monster token, they have to be damage free, please. As you can tell, a lot of time and money went into these tokens and we would like to reuse at future monster events. Thanks for your consideration and have fun.

- 1.) One token per participant only.
- 2.) You cannot collect more than one token or save additional tokens for future events. They are only good for the 2013 spring race.
- 3.) Team hunting for tokens, if you team hunt please only take one per team, we will use the honor system.
- 4.) As time passes, we will give out more clues to the whereabouts of the remaining tokens. Check daily to see if any reported tokens have been found.
- 5.) For those who find a token, please email [meadowsmonster@gmail.com](mailto:meadowsmonster@gmail.com) and identify the location of the found token and your name. We will then post on the Meadows Monster web site for fellow hunters to see. This will help hunters not to waste time on tokens already found.

## Scavenger Hunt Clues

Tools listed below are not required for retrieval on every coin but are required for the retrieval of all coins. Any of the tools listed below if carried at all times while practicing the Meadows Monster Challenge the will only increase your chance of coming to the race with a free entry (when redeemed).

Compass

Multi-tool or Knife & Screwdriver (s)

GPS

Coin # 1)

I am hiding in the busiest location before, during, and after the race.

I am not out in the open.

I am sharing my space with another purpose.

Coin # 2)

18 paces East and 15' up from the location shown in picture.

Coin # 3)

As "Mouth of the South" Jimmy Heart used to say "you scratch my back I'll *scratch* yours"

Coin # 4)

N 41 52.2282

W 89 28.2558 : 15 paces North of Nest Box # 6

Coin # 5)

If you become intimate with me I can help you reflect on the past 9 mi.

I may be at the lowest point/altitude in the race.

Don't get caught in a trap as it will keep you from your goal.

Good Luck
